Closest locations 1-13, Table 1 of 218

Data Note: Locations are listed based on their proximity to the study area location. A maximum of 5000 records can be displayed on one report. Data on the Business Locator report is based on the businesses whose location falls within the area of study. Total Sales, Total Number of Businesses, and the Employee/Population Ratio are calculated using the collection of business points that fall within the area of study.

 **Source:** Esri forecasts for 2025 and 2030. Business information provided by Data Axle (April 2025). Data Axle assigns two additional proprietary digits onto standard NAICS and SIC classification codes to provide more detail about the business type.
